The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. REYNARD NO MATCH FOR CAT

Strange Encounter in Farmyard That Had Its Inception in the Maternal Instinct.

Edward Pursey, Bailys Court farm, Stoke Gifford, near Bristol, which is situated in the Badminton district, relates an extraordinary encounter which he witnessed last week between a cat and a fox, says an English newspaper. Mr. Pursey was awakened early in the morning by a most unusual commotion among his chickens. Suspecting a visit from Reynard, he speedily lifted the window, and on looking out witnessed a sight which astonished him. Tearing through the potatoes and among the cabbages was a fox, which was snapping and snarling at the farmhouse cat, which was on the fox's back, and with a firm grip with her forefeet just in front of the fox's shoulders was making the fur fly from the fox's back by means of her hind feet. Round the garden rushed Reynard, playing havoc with the garden produce; but it failed to unseat pussy, who maintained her position with all the skill of a professional jockey until the fox made a bolt through the kidney bean sticks—a blow from one of these gave the fox its liberty. The cat had a litter of kittens in the corner near the chicken run, and it was the maternal instinct that made her go for the fox.

AUTOMOBILE ARTILLERY.

Efforts are being made by the powers toward the adaptation of the automobile to the transportation of field artillery. It has been pointed out that the idea of a self-moving gun carriage for field guns was suggested as early as the year 1769 by the engineer, Cugnot. At present efforts are principally directed to the perfection of a form of automobile suitable to take the place of horses in drawing the artillery wagons, many different forms of ironclad automobiles, carrying light guns, have already been invented and tested, with more or less success, but, it is said, the main problem is to adapt the automobile to the transportation of guns mounted, as at present, on their own carriages.

SPEAKING OF SCALES.

Mr. Bacon—I see by the paper that the San Jose scale, it is estimated, has cost the fruit growers of the United States \$200,000,000.

Mrs. Bacon—Why don't they put the weights and measures inspector after the men who use such scales?

HE WAS WISE.

"He knew it would be of no use."

"How so?"

"He married a widow, and you can't lie to a widow and get away with it."

THE REASON.

"That's on account of the whistling buoys."

GOOD DEFENSE.

She—I'm afraid you are fickle.

He—Fickle? Not I. For over eight years I have stuck to the same brand of cigarettes.

The Big 10-Day Sale Is Still On!

The most skeptical have come and their eyes were opened in amazement to see the new and fashionable merchandise we had for their approval and were dumbfounded at the extremely low prices that were offered. They all bought that came and are still buying. Six more days yet. It is true that when the average person starts shopping, he or she looks for the place that has the goods—that obtains fashion and make up as well as the right price. Such as our ladies' tailored suits and suits for men and boys; they are suits that have style within itself, with that individuality which isn't often obtained. We have just received 50 Ladies' Tailored Suits from New York in the past week; they are suits with just the style, quality, and at just the prices you are looking for. We are frank to say that the most skilled and tasty designers who met in Toledo last spring for the great Eastern manufacturers to plan styles for the coming fall could not have displayed any more exquisite taste and ideas than those which are shown in these suits. Ladies, we ask you just to come in and see, it costs you nothing to look and get prices. Men and Boys, we want you to come and let us make you a price on a suit. Remember, 6 more days of this big first cut sale of the season; just at the time you need the goods. If you care to save, visit us.
